CAPACITY 1.5-3.5 TON

FE SERIES 4-WHEEL ELECTRIC FORKLIFT

FE Series 4-wheel electric forklift (Capacity 1.5-3.5T) is a fully upgraded model developed on the basis of the original V Series. This series is built for strength and durability. Designed to withstand the toughest environments, both indoors and outdoors. The compact, agile design for daily manoeuvring in tight space.

HIGH PERFORMANCE

The drive axle adopts an integrated differential axle, great stability.

Outstanding high turn performance to effectively assist operators.

Featuring a load sensing steering gear, increasing the lift speed.

Equipped with a high-power horizontal integrated AC motor, high performance with good acceleration.

Steering Axle: Cast axle body with a 30% increase in strength and durability, bringing an enhanced operating experience and greater safety.

Multiple travel modes can be freely switched based on working conditions, enhancing efficiency.

LEAD-ACID & LITHIUM BATTERY SOLUTIONS

Lead-Acid

- Proven Reliability
- Cost-Effective
- Easy Maintenance
- Suitable for Multi-Shift Operations

Lithium Battery

- High Efficiency & Fast Charging
- Longer Lifespan
- Maintenance-Free
- Energy-Saving & Eco-Friendly
- Charging heating function (-20°C)

4 YEARS WARRANTY
